

DURABILITY AND TRUST FROM 1948

MANUFACTURER OF LABORATORY CENTRIFUGES

DURABILITY

AND TRUST FROM 1948

MANUFACTURER OF LABORATORY CENTRIFUGES

## ABOUT US – WE ARE COMMITTED TO OUR HERITAGE

We are the **unique manufacturer** of modern and reliable medical and laboratory centrifuges in Poland. Our direct partners include scientific and research centers and laboratories that help us to satisfy the requirements of our customers. Opinions of end users of our products are the best reference – please go to the downloads/references section.

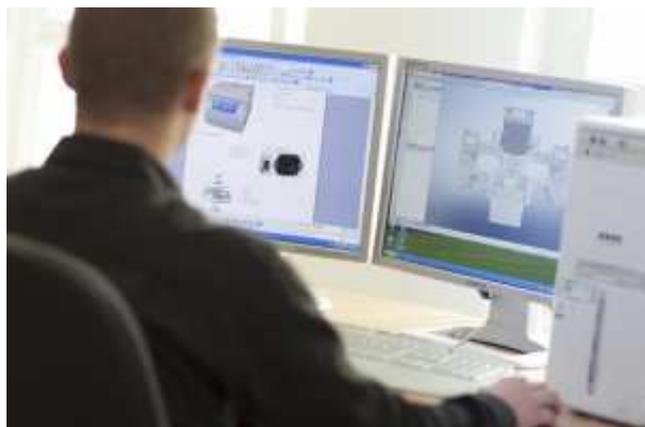

According to the general provisions of the current legislation, **we are a SME.**

As a co-operative, our company is based only on the Polish equity, paid in by our members.

We run our business at our **own manufacturing and office facilities.**

Our manufacturing cycle starts at the design and technology departments where we use 3D computer aided design processes.

With our **technical potential**, we are able to manufacture electro-mechanical instruments with electronic components. We use numerically controlled machine tools, metal sheet processing equipment, and computer-controlled balancers and engraving machines.

We have a list of approved suppliers in the area of design and manufacturing of electronic circuits, mechanical processing and other manufacturing techniques.

Our **creative staff** has extensive professional experience.

We are committed to continuously and successfully improving and upgrading our products.

DURABILITY

AND TRUST FROM 1948

MANUFACTURER OF LABORATORY CENTRIFUGES

For every centrifuge type, we offer a **wide range of equipment** to enhance the research and diagnostic capabilities of their users. The equipment is developed with the feedback from end users.

MPW products are **recognised by the markets** as technologically advanced, reliable and competitively priced.

It has been confirmed for example by medals awarded at industry exhibitions.

From 2000, all our products are **CE marked**.

They are also registered as medical devices.

We have a quality management system in place. The system is compliant with **EN ISO 9001:2008** and **EN ISO 13485:2012 + AC 2012**.

In order to provide our customers with excellent customer service, we have an extensive network of domestic distributors and international business partners.

Another benefit of working with us is our fast, efficient and professional service provided by our colleagues or through the network of authorised repairers.

## OUR HISTORY DATES BACK THE 1940s

The founding members were craftsmen who established a co-operative in May 1948 to pursue their common needs as well as business and social aspirations.

Over all these years we have developed our company by following the guiding principles of co-operative enterprise.

DURABILITY

AND TRUST FROM 1948

MANUFACTURER OF LABORATORY CENTRIFUGES

Despite of the years passed, economic transformation and sometimes difficult economic climate – we still operate as a co-operative business. We have achieved a position both in the community of Polish manufacturers and in international markets.

Initially, our range included laboratory and measuring and controlling equipment. We manufactured and marketed laboratory scales, weights, vacuum pumps, homogenisers and medical and laboratory centrifuges.

Years have passed and we decided to focus on centrifuges.

Before 1994 our company was known as “Mechanika Precyzyjna”.

To improve recognition in new international markets opened for us, we changed our name to MPW Med. instruments. It helped us a lot in achieving a high share of export in the overall sales. Today, the company’s logo is well recognised in Poland and also in international markets.

For over 60 years in business, we were committed to continuously developing our company. We have built and expanded our manufacturing and office facilities. We have developed our staff and upgraded the plant and machinery. We have modernised our products and enhanced their specialist equipment. In short, we have consistently built our potential that brought us to our current position.
